

Geography Home Learning

If you are looking for some fun geography activities to attempt on the internet, type the following into the address bar:

www.oddizzi.com

Once on the website, look for the 'Log In' box. Click on it and type in the correct username and password for your year group:

Year Group	Username	Password
Nursery	nhillside	hillside
Reception	rhillside	hillside
Year 1	y1hillside	hillside
Year 2	y2hillside	hillside
Year 3	y3hillside	hillside
Year 4	y4hillside	hillside
Year 5	y5hillside	hillside
Year 6	y6hillside	hillside

Here, you will find three different areas to explore:

Explore The World	Use this feature to find facts, watch videos and explore photos of anywhere in the world. This is great if you would like to find out more about a particular place.
Quiz	Test your knowledge by answering questions about a range of geography topics (some you will have covered in class!). Don't forget to choose your name

	from the drop-down list so your results go on to your class leaderboard.
Learning Zone	This section gives printable reading comprehension based on Geography topics. There is a wide range for KS1 and a smaller range for KS2, however the texts are challenging so if you are in KS2, don't be afraid to have a look at some of the 'Upper KS1' texts.

Challenge

If you'd like to challenge yourself, research and find out about a place in the world and present it in an interesting way. Here are some ideas for how to present it:

A fact file	A poster	A fictional story
A news report	A song	A powerpoint
A film	A drawing	An infographic

Use Oddizzi to help you with your research. Also, you may find it useful to first explore your place (or any other place you have ever been interested in!) on Google Earth. Just type the following into the address bar:

earth.google.com

I can't wait to see what you come up with when we're back at school!

Good luck 😊

Mr Mellor
