

Maths Activities - Counting in 5s

Activity One

How many sets of five can you find in your house? Can you find 10 different sets? When you have found them, count them in 5s to 50 as fast as you can!

Activity Three

Colour in the 5x table - what do you notice about the pattern?

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50

Activity Two

Count in 5s using your hands! What do you notice about counting in 5s? Is there a pattern? (The ones (previously known as units) are always 0 or 5!)

Activity Four

Investigate numbers - are they in the five times table or not? Use your counting aloud to help you and remember the rule about the ones! (What do the 5x tables end in?) Investigate these numbers and add them to the table!

2 5 10 16 20 23 30 35 41 50

Is in the 5x table	Is not in the 5x table
